

intermodal rail facilities to increased maritime related/industrial tenant activities. The lease and development alternatives would introduce major changes in scale and character of the Historic District at FISCO. In compliance with Section 106 of the National Historic Preservation Act (16 U.S.C. Section 470(f)), the Navy has consulted the State Historic Preservation Officer, and a Memorandum of Agreement has been reached regarding mitigation for adverse effects. The action will result in net air pollution emissions that will be below established threshold levels. A record of non-applicability for the proposed action has been prepared pursuant to 40 CFR Parts 51 and 93 and no Clean Air Act Conformity determination is necessary. There will not be any disproportionately high and adverse human health or environmental effects from the action on minority and low-income populations.

A Draft EIR/EIS was prepared by the Port and the Navy, and distributed to agencies and officials of federal, state and local governments, citizen groups and associates, public libraries, and other interested parties for review and comment. A public hearing to inform the public of the DEIR/EIS findings and to solicit comments was held on September 19, 1994. Public comments concentrated on existing adverse commercial truck traffic conditions in the West Oakland neighborhood. The Port of Oakland has been working with community-based organizations to arrive at appropriate and reasonable measures to ease these existing conditions. Copies of all comments received were included in the Final EIR/EIS. Six sets of written comments were received in response to the FEIR/EIS during the 30-day public review period. Two sets of these comments focused on technical questions pertaining to FISCO biological resources, and the asbestos survey at the site. The organizations making these comments will be directed to the appropriate sections of the FEIR/EIS that addressed their concerns. The principal emphasis of the remaining four sets of comments was regarding the action and its relationship to the Port's broader long-term expansion plan, including associated impacts—especially from increased commercial truck traffic. As part of the Port's "Vision 2000" long-term conceptual plan, the Port is investigating the feasibility of leasing an additional 200 acres of FISCO property for future expansion and development of maritime and rail facilities beyond the action. The Port will prepare a separate or

supplemental NEPA/CEQA document that will suitably evaluate the environmental impacts of such future expansion plan, as components of the plan become reasonably foreseeable.

Questions regarding the Draft and Final Environmental Impact Report/Environmental Impact Statement prepared for this action may be directed to: (1) Mr. Raymond Chiang, Environmental Planning Branch, Engineering Field Activity West, Naval Facilities Engineering Command, P.O. Box 727, San Bruno, California 94066, FAX (415) 244-3737 for questions pertaining to the Navy action; and (2) Mr. Charles Schwarz, Environmental Department, Port of Oakland, 530 Water Street, Oakland, California 94607, FAX (510) 465-3755 for questions pertaining to the Port of Oakland action.
